

**FirstPower Group LLC Announces the addition of Becker and Kaeser compressors.
New models available for sale with installation, service and technical assistance available.**

November 6, 2009-Twinsburg, OH--FirstPower Group LLC, a northern Ohio based high voltage circuit breaker and compressor service and sales company announces today, the addition of a broad range of new, in production compressors for sale, each well suited to the diverse needs of the electric power industry, and nearly any application with similar operating demand and specifications. Models are available for nearly every common ATB, OCB and SF6 high voltage circuit breaker application.

Visit <http://www.FirstPowerGroupLLC.com>, for more information or to browse the selection of available units.

“The addition of Becker and Kaeser’s solid, performance proven line of compressors provides our clients with a true one-stop-shopping experience. Combining our longstanding leadership in circuit breaker and compressor parts, service and remanufacturing, with a full range of circuit breaker compressors allows us to meet nearly any client need...” says FPG CEO Jack Harley. FirstPower Group LLC has been manufacturing the CircuitAir 210 compressor since 1990 as an improved direct replacement for the popular out-of-production Keystone Compressor (models A, D, Y, BY). The CircuitAir 210 features, among many improvements, increased airflow to cylinders & a larger oil reservoir.

[FirstPower Group LLC](http://www.FirstPowerGroupLLC.com) has roots to a proud history of service and affordable, effective solutions to common electric power industry equipment problems. Established in 1979 by Jack Harley and originally known as J.W. Harley Inc., the company fulfilled Jack’s vision of providing the electric power industry with superior substation products and upgrade services. In 1999, J.W. Harley Inc. became part of the General Electric Company; known as the GE Harley Service Center it was part of GE Energy Services. In 2007, industry veterans Jack Harley and Frank Ricard, Manager of Engineering & Quality for GE Harley Service Center, took ownership of the compressor and circuit breaker segments of the business and FirstPower Group LLC was born. FirstPower Group LLC is applying years of experience working with compressors and high voltage circuit breakers and first-hand observation of the common causes of equipment failure, to produce cost saving solutions to common problems with the operation of high voltage circuit breakers and associated components. FirstPower Group LLC is a Distributor of Becker and Kaeser compressors and manufacturer of the CircuitAir 210 compressor.
