appropriate to local circumstances and the

Version Revision Date SDS Number Date of Issue 1A 3/12/2020 WK-001-2020 3/12/2020

surrounding environment. Use water spray to cool unopened containers. Remove undamaged containers from fire area if it is

safe to do so. Evacuate the area.

Special protective equipment for

fire-fighters

Wear self-contained breathing apparatus for

firefighting if necessary. Use personal

protective equipment.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency

procedures

Follow safe handling advice and personal protective equipment recommendations.

Environmental precautions

Discharge into the environment must be avoided. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g., by containment or oil barriers). Retain and dispose of

contaminated wash water. Local authorities should be advised if significant spillages

cannot be contained.

Methods and materials for containment and cleanup

Soak up with inert, absorbent material. For large spills, provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absorbent. Local or national regulations may apply to the release and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding local or

national requirements.

SECTION 7. HANDLING AND STORAGE

Technical measures See *engineering measures* under section 8

of this SDS.

SDS Number Date of Issue Version **Revision Date** 1A 3/12/2020 WK-001-2020 3/12/2020 Advice on safe handling Handle in accordance with good industrial hygiene and safety practice. Take care to prevent spills, waste and minimize release to the environment. Conditions for safe storage Keep in properly labeled containers. Store in accordance with national regulations. Materials to avoid Do not store with the following product types: strong oxidizing agents.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Contains no substances with occupational exposure limit values.

Engineering measures Processing may form hazardous

compounds (see SECTION 10). Ensure adequate ventilation, especially in confined areas. Minimize workplace exposure

concentrations.

Personal protective equipment

Respiratory protection No personal respiratory protective

equipment normally required.

Hand protection Wash hands during breaks and at the end

of the day.

Eye protection Wear safety glasses or face shield.

Skin and body protection Skin should be washed after contact.

Hygiene measures Ensure that eye flushing systems and safety

showers are located close to the work place. When using, do not eat, drink or smoke. Wash contaminated clothing prior to re-use. There precautions are for room temperature handling. Use at elevated temperature or aerosol/spray applications

may require added precautions.
